DETAILED ACTION

Request for Continued Examination

1. The Request for Continued Examination filed on 8/26/03 (RCE) under 37 CFR 1.114 based on parent Application No. 09/808,291 is acceptable and a RCE has been established. An action on the RCE follows.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Meyers et al. (US 4,287,704).

Meyers discloses manufacturing packets comprising applying adhesive to a portion of each blank by nozzle 34 (figure 10); placing the plurality of folded blanks in at least one stack (figure 21); removing one blank from a stack A and folding/assembling the packet.

Regarding claims 2-5, it is inherent that before the final closure of the container (step of claim 2) in the cartoner that first through fourth tabs will be moved inwards towards the opening after inserting a product; see figures 9 and 20 (note also locking flap in figure 9).

Response to Arguments

4. Applicant's arguments with respect to claims 1-6 have been considered but are moot in view of the new ground(s) of rejection.
